

OptiFlow™

TrailerSkirt™

LIGHTWEIGHT AERODYNAMIC SIDE SKIRTS FOR TRAILERS

WABCO

OptiFlow™ TrailerSkirt™ offers more than 5% fuel savings at US highway speeds (65 mph) and is EPA SmartWay and C.A.R.B. approved. TrailerSkirt reduces CO₂ emissions by up to 4.6 tons per trailer per year.

The trailerskirt line was developed to meet the rough trucking environment while providing a certified solution that has low total acquisition cost.

WABCO's patented product design reduces the number of components allowing for a simple and easy installation. The support struts are made of high durability thermoplastic, offering two way flexibility in hot or cold weather.

PRODUCT FEATURES:

- SmartWay and C.A.R.B. approved
- Aerodynamically designed and tested for proven fuel savings
- Patented one bolt mono-clamp technology for fast installation
- Thermoplastic strut allows flexing in both directions
- Tough fiber and reinforced plastic composite panel
- Available in different lengths for 28' to 48' and 53' trailer applications
- Standard availability: white and black, other colors upon request
- Fits all reefer and dry van trailers
